**PW**  
PROVEN  
WINNERS **Weigela 'Fine Wine™'**

Like a fine wine this Weigela has good body! It is a vast improvement over similar varieties such as 'Ruby Queen'. Its habit is tight and upright without having the tendency to split in the middle like an animal sat on your plant. Its foliage color is similar to that of a fine wine as well, nice and dark burgundy like a cabernet. No wonder the name is FINE WINE™.

**PW**  
PROVEN  
WINNERS **Hibiscus 'Sugar Tip®'**

An eye-catching, new Rose of Sharon with brightly variegated creamy-white and bluish-green foliage. Unlike 'Purpureus Variegatus' this beauty actually flowers! It produces loads of clear pink, double flowers and does not produce seed like older cultivars. This is a beautiful plant that will look great in your garden all summer.

**PW**  
PROVEN  
WINNERS **Spiraea Double Play® Big Bang**

Double Play spiraea have both colorful flowers and colorful foliage. Massive pink flowers of a size never seen before adorn bright yellow foliage. This plant has the largest flowers we've ever seen on a spiraea. Foliage glows orange in the spring. Adaptable and easy to grow, this is a great plant for landscaping. Tuck it into your existing mixed border or use it as a mass planting.

**PW**  
PROVEN  
WINNERS **Forsythia Show Off™**

Show Off™ is not your typical Forsythia! It is compact and full of blooms from the ground to the ends of every stem. This little beauty will stay small so there is no need to prune. It will just put a smile on your face. This variety is a vast improvement overall. Now you can have your hedge – tight and compact the way you want it without doing any work.

**Hydrangea p. 'Pinky Winky' Tree**
